Applicant's election of Group I including claims 1-18, 22-23 and 25 in the reply filed on 03 November 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 19-21 to invention non-elected without traverse above. Accordingly, claims 19-21 have been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In The Claims

The non-elected claims 19-21 have been cancelled.

A telephone call was made to James E. Brunton on 14 November 2005 to cancel the non-elected claims above, but did not result in an examiner's amendment being made.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose an apparatus and/or method for uniformly illuminating molecular samples with ultraviolet radiation, which includes a conversion means removable carried by a housing at a location between a serpentine shaped ultraviolet tube and a sample support platform for converting the ultraviolet light having a first wavelength to a second wavelength as recited in claims 1 and 9; or means for

Art Unit: 2881

adding a first converted radiation wavelength to a second converted radiation wavelength of the ultraviolet light to produce a sample irradiating radiation as recited in claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
